Subject: Extension Request: Data Structures Final Project – Vaibhav Bhimte, CS201

Dear Dr. Gupta,

I hope this email finds you well.

I am writing to respectfully request a short extension for the upcoming Data Structures Final Project, which is currently due on March 30, 2026. Unfortunately, I have been dealing with a severe viral fever for the past few days that has put me behind schedule.

I have already completed the research phase and the initial code logic, but I want to ensure the final submission meets your standards and is thoroughly debugged. Would it be possible to submit my assignment on April 2, 2026, instead?

I completely understand if this is not feasible and appreciate your time and consideration.

Best regards,

Vaibhav Bhimte

Subject: Summer 2026 Internship Inquiry

Dear Internship Coordinator,

I hope you are having a great week. My name is Vaibhav Bhimte and I am currently a 3rd year student studying Computer Science & Engineering at Vellore Institute of Technology.

I am reaching out to express my strong interest in the Software Engineering summer internship program at DataFlux Analytics. I have been following your team's recent work on the new AI-driven customer insights dashboard, and I am highly motivated by your company's innovative approach to data analytics.

Through my academic coursework and personal projects, I have developed a strong foundation in Python and React.js. I am eager to contribute my skills to your team while learning from industry experts.

I have attached my resume for your review. Thank you for your time and consideration. I look forward to the possibility of discussing how I can add value to DataFlux Analytics.

Sincerely,

Vaibhav Bhimte

College Student Social Media Checklist

✅ The Do's (Best Practices)	❌ The Don'ts (What to Avoid)
Do audit your privacy settings regularly to control who sees your personal content.	Don't post complaining or negative comments about professors, peers, or employers.
Do share your academic projects, hackathon wins, and portfolio updates.	Don't share sensitive personal information (like your real-time location or class schedule).
Do pause and think before you post—assume everything is permanent.	Don't post photos or videos of unprofessional, illegal, or heavily partying behavior.
Do engage respectfully in online discussions and industry forums.	Don't engage in cyberbullying, trolling, or heated, emotional internet arguments.
Do Google your own name periodically to see what potential employers might find.	Don't use exactly the same password across your social and academic/banking accounts.
